

**DEPARTMENT OF PESTICIDE REGULATION'S GUIDING PRINCIPLES FOR THE STATEWIDE PESTICIDE
APPLICATION NOTIFICATION SYSTEM**

- 1. Improve Equity and Transparency** – Provide communities with equitable access to information about the pesticides used around them.

- 2. Support Public Health** – Provide timely information about pesticide applications to enable additional health-protective actions.

- 3. Prioritize by Health Impact** – Prioritize notification of pesticide applications that have greater potential to cause health impacts.

- 4. Encourage Engagement and Communication** – Encourage regular engagement and communication between growers, pesticide applicators, local government, and nearby communities.

- 5. Complement Existing Laws/Regulations** – Complement laws and regulations that govern the safe, legal application of pesticides.
