

6000. Definitions., continued

“**Display**” means to make information available to the employee so that he or she may readily see and read the document, during normal business hours, without having to make a specific request of any person. An employee shall not be hindered or impeded from examining documents required to be displayed. This definition does not preclude using a binder or filing cabinet, that otherwise meets these criteria, to contain documents for display.

“**Dormant oil**” means petroleum distillates, petroleum hydrocarbons, unclassified petroleum oils, and mineral oils that are used for pest control and applied to deciduous plants.

“**Dormant insecticide**” means petroleum distillates, petroleum hydrocarbons, unclassified petroleum oils, and mineral oils with the addition of other insecticides – or other insecticides used alone – that are used for pest control and applied to deciduous plants.

6000. Definitions., continued

“**Early entry**” means entry into a treated field or other area after the pesticide application is complete, but before the restricted entry interval or other restrictions on entry for that pesticide have expired.

“**Employee**” means any person who, for any kind of compensation, performs work, services, or activities covered by this division.

“**Employer**” means any person who exercises primary direction and control over the work, services, or activities of an employee. A foreman, crew leader, supervisor, or similarly situated person represents the employer when hiring an employee or when exercising, or having responsibility for exercising, the primary direction and control, but is not considered the employer himself or herself.

“**Enclosed cab**” means a chemical resistant barrier that completely surrounds the occupant(s) of the cab and meets those portions of the requirements in American Society of Agricultural Engineers Standard S-525 (Rev. 5/98) that pertain to dermal protection.

“**Enclosed cab acceptable for respiratory protection**” means an enclosed cab that incorporates a dust/mist filtering and /or a vapor or gas removing air purification system, as appropriate for the exposure situation. Enclosed cabs certified by the manufacturer as meeting American Society of Agricultural Engineers Standard S-525 (Rev. 5/98) are acceptable under this definition. The Director may, upon request, approve other enclosed cabs as acceptable under this definition.

“**Engineered rights-of-way**” means areas within a ground water protection area that are constructed in a way that results in increased runoff and collection of storm water, such as railroad ballasts and berms, public roadsides, and highway median strips or similar areas, but not canal or ditch banks or utility lines.

“**Examination**” means written examination.

“**Ethical review**” means an evaluation of a human pesticide exposure study protocol that focuses on the rights, safety, and welfare of the human participants. Key elements of the review include informed consent, freedom from coercion, recruitment criteria, risk versus benefit, and safety issues.

“**Evapotranspiration**” is the combination of water transpired from vegetation and evaporated from the soil and plant surfaces. Evapotranspiration data can be obtained from the California Irrigation Management Information System (CIMIS) or other local sources.
