

Branch 1: Violation or Not?

Structural Regulatory Training

Paul Ryan
CDPR Enforcement Branch
2019

What do you see?

Is it a violation or not?

In the next series of photos look at the setup and see if there appear to be any violations.

Where would you look for the requirement?

- Food and Agricultural Code (FAC)
- **Title 3, California Code of Regulations (3CCR)**
 - California Aeration Plan (CAP)
- **Business and Professions Code (BPC)**
- Title 16, California Code of Regulations (16CCR)

Is This A Violation?

Is This A Violation?

In this scenario the inspector observed the licensee:

1) Activating the Ducted Air Fan remotely

2) Then donning the SCBA to install the inlet devices...

Is This A Violation?

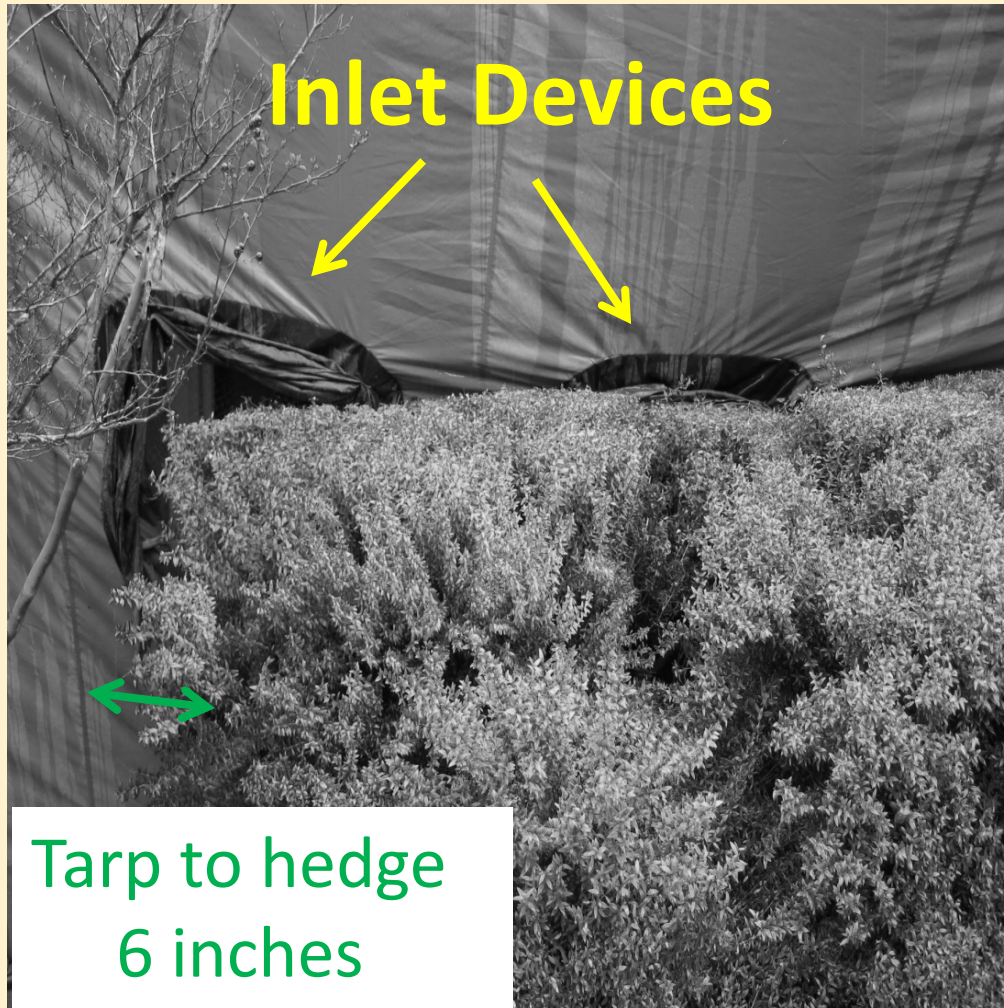

**Assume this structure needs 2 inlets
and this is one of them.**

Is This A Violation?

Is This A Violation?

Assume this structure needs

- 2 inlets.

The hedge is

- 6 inches away
- from the inlets.

Is This A Violation?

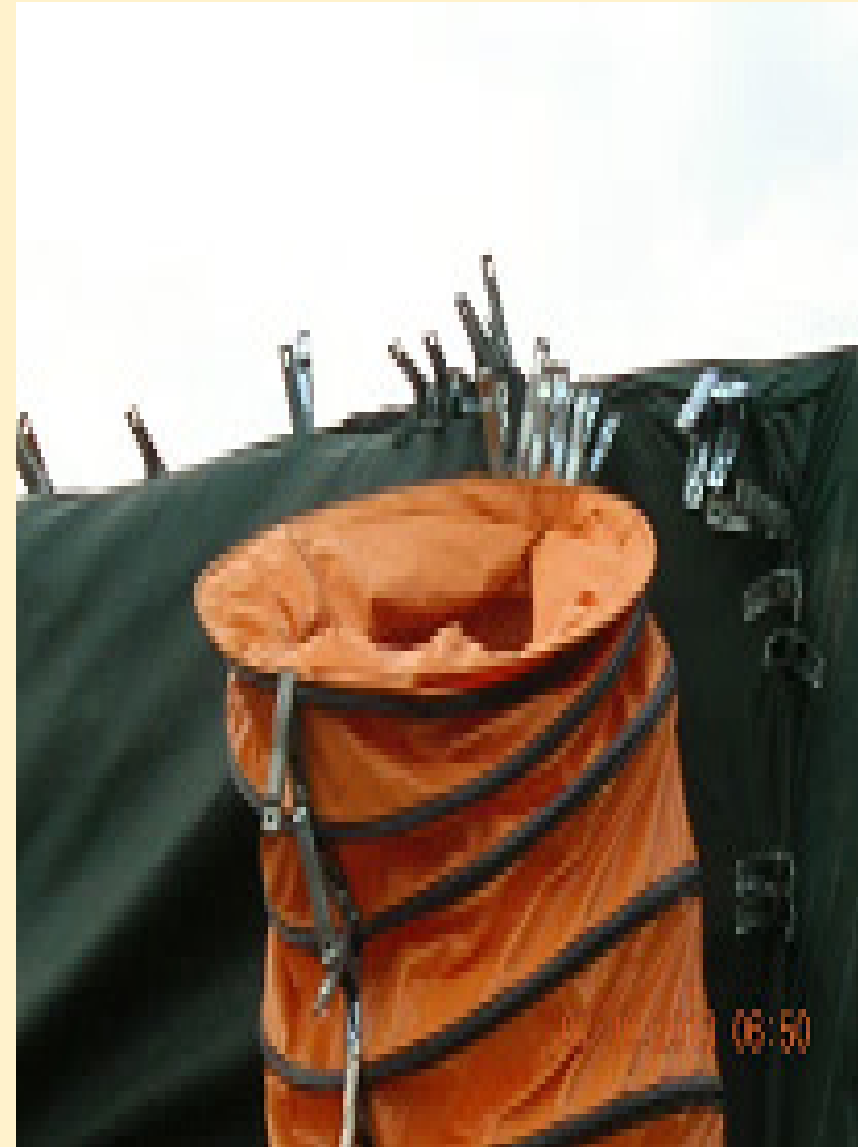

What do you think?

Is This A Violation?

Is This A Violation?

- You arrive on Day #3 and you hear the duct fan running inside
 - (active aeration)
- What do you think?

Is This A Violation?

- You arrive on Day #3 (still during Aeration)
- What do you think?

Is This A Violation?

6' 4"

Is This A Violation?

Is This A Violation?

Is This A Violation?

Aeration duct had disconnected from the eave and fan was still running. The inspector observed the licensee unplugging the aeration fan

Is This A Violation?

- This picture was taken during a certification inspection
- This is the only attic access
