### ***Who Needs It?***

- Any person, whether inside or outside of California, who first sells or distributes pesticides in California (except persons already licensed as a pest control dealer or registrant selling his/her own registered product). All pesticides offered for sale or sold in California must be registered by the Director of the Department of Pesticide Regulation (DPR).

Also, the first person who sold this product into or within California shall show the mill assessment will be paid.
- Retain records of your purchases, sales, and distribution of pesticides into or within California for four years at the principal place of business. [FAC section 12406(a)]
