

Pesticide Products Reviewed for Use on Cannabis in California
Current December 2024

This list includes all products vetted to see if they meet California's legal use criteria. Please view column G to view which products are consistent with and meet California's legal criteria for use on cannabis.

The list is not a recommendation, nor is it a complete list of all possible products: This list is not an endorsement or recommendation to use these products in the production of cannabis, nor is it an exhaustive list of all products that may meet California's use criteria.

Products exempt from registration are not included on this list: Products exempt from registration under FIFRA 25(b) and 3 CCR 6147 (25(b) products) are not scientifically reviewed by DPR and will not be included in the list, though they may meet the criteria for use in California.
