

Appendix L

Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigation Recommended Permit Conditions

Overview

Background Formerly Subsection C.7.2 – *Metam Sodium, Metam Potassium, and Dazomet Field Soil Fumigation Recommended Permit Conditions.*

Introduction This document provides recommended permit conditions for field soil fumigation applications of metam sodium, metam potassium, and dazomet products.

DPR recommended permit conditions The recommended permit conditions contained in this appendix supersede previous Department of Pesticide Regulation (DPR) recommended permit conditions for all field soil fumigation applications of MITC-producing products containing metam sodium, metam potassium, and dazomet.

The revised recommended permit conditions mitigate hazards associated with offsite movement of metam sodium, metam potassium, and dazomet and apply to all applications when used as a field soil fumigant. Many revisions are in response to recent improvements to fumigant product labeling. Those improvements enabled DPR to streamline the recommended permit conditions.

Application method organization The recommended permit conditions have been organized by application method at the request of county agricultural commissioners.

Appendix L, Continued

In this
Appendix

This Appendix contains the following topics.

Application Method #	Application Method
1	Dazomet Field Soil Fumigation Recommended Permit Conditions
2	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drench Applications
3	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Drip Applications
4	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Flood Applications
5	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Power Mulcher and Rotary Tiller (Rototiller) Applications
6	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Rod Bar Applications
7	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Shank Applications
8	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Spray Blade with Soil Cap Applications
9	Metam Sodium and Metam Potassium Field Soil Fumigation Recommended Permit Conditions for Sprinkler Applications
