Data Reporting Guidelines for the Rice Pesticide Program

Introduction This document outlines the data reporting guidelines for the Rice Pesticide Program.

Pesticide Use Reporting procedures Follow your normal download and submittal practices (i.e., via e-mail) when electronically sending pesticide use report (PUR) data to DPR. Please send your rice PUR data to DPR's **Pest Management and Licensing Branch** in a timely manner so this data can be compiled and summarized for the annual report.

California Rice Commission report preparation The California Rice Commission (CRC) will submit a routine information request¹ to each rice-growing county for inspection data, and compliance and enforcement action data. The CRC will contact DPR to obtain the PUR data.

The CRC will use the data to prepare the annual report required by the Central Valley Regional Water Quality Control Board (CVRWQCB) by December 31 of each year.

Reporting inspection, compliance, and enforcement action data The California Rice Commission will request the following inspection, compliance, and enforcement action data. You may continue to use Form C, the *Annual Rice Reporting Information* form that follows.

For **thiobencarb** (Bolero[®] UltraMax, Abolish[®] 8EC, League[®] MVP), report the number of:

- Mix/load inspections
 - Application inspections
 - Water hold inspections
 - Release inquiries
 - Emergency releases
 - Non-compliance inspections
 - Agricultural civil penalties (ACPs)
-
