

California's Restricted Materials Permitting Program, Continued

Quick reference list For a complete list of California restricted materials, see 3 CCR section 6400(e). A quick reference, Appendix B, *California Restricted Materials Requirements*, is also available on-line at: <http://www.cdpr.ca.gov/docs/enforce/dpr-enf-013a.pdf>. *The most recent version of the codes should always be referenced before initiating an enforcement action.*

Federal restricted use pesticide classification The Administrator of the U.S. Environmental Protection Agency (U.S. EPA) declares a pesticide to be a “restricted use pesticide” when he/she determines that when the pesticide is applied in accordance with its directions for use, it may generally cause, without additional regulatory restrictions, unreasonable adverse effects on the environment, including injury to the applicator. The Administrator shall classify the pesticide, or the particular use or uses to which the determination applies, to be a “restricted use.”
(Reference: *Section 3(d)(1)(C)(i-ii) of FIFRA (Title 7, United States Code, section 136a)*)

Exempt materials Food and Agricultural Code section 14006.7 requires the Director of DPR to designate by regulation, a list of exempt materials. The exempt materials may be used without a permit if the use conforms with the registered labeling. Exempt materials include those materials specified in 3 CCR section 6402. Materials or formulations of materials exempt from permit requirements are specified in 3 CCR sections 6414 and 6416.
