

Attachment: Nonagricultural Outdoor Neonicotinoid Products by Registrant

As of March 7, 2024, 146 pesticide products containing the active ingredients acetamiprid, clothianidin, dinotefuran, imidacloprid, or thiamethoxam are registered with non-agricultural uses on non-production outdoor ornamental plants, trees, or turf in California. DPR determined the 146 products listed below are subject to the decision to initiate reevaluation in accordance with the statutes of Assembly Bill 363 which amended FAC Section 12838.

Products are listed alphabetically by registrant name. If a product was only recently registered or the product is not currently registered, it may not appear on the list below. If there is an asterisk placed next to the company name this indicates that the firm is currently undergoing a company name or ownership change.

Table 1: Nonagricultural Outdoor Neonicotinoid Product Table

Registrant	EPA Registration Number	Product Name	Active Ingredients(s) Subject to Reevaluation
ALBAUGH, INC.*	42750-115-ZA	IMIDASTAR 2L T&O	IMIDACLOPRID
