

Chlorpyrifos Alternatives Work Group  
Public Roundtable Discussion Agenda

January 14, Fresno, 5:30-7:30 PM  
January 16, Sacramento, 1:30-3:30 PM  
January 21, Oxnard, 5:30-7:30 PM

**Meeting Overview & Purpose**

California has cancelled the pesticide chlorpyrifos (Lorsban). Nearly all uses of this pesticide will end in 2020. To help growers and communities adapt to farming without this chemical and replace its use with safer, more sustainable pest management alternatives, the California Department of Pesticide Regulation, the California Department of Food and Agriculture, and the California Environmental Protection Agency convened a 20 member Work Group to identify short- and long-term solutions.

The goal of this meeting is to present the group's preliminary recommendations to the public and listen to your reactions and comments.

**Agenda**

Time	Topic
5:30	Welcome from DPR, CDFA, CA EPA <ul style="list-style-type: none"><li>● Our goals for this listening session</li><li>● Background on chlorpyrifos cancellation</li></ul>
