### DIVISION 6. PESTICIDES AND PEST CONTROL OPERATIONS CHAPTER 2. PESTICIDE REGULATORY PROGRAM SUBCHAPTER 1. DEFINITION OF TERMS ARTICLE 1. DEFINITIONS FOR DIVISION 6

Amend section 6000 to read:

#### **6000. Definitions.**

...

"**Filtering facepiece** (~~dust mask~~)" means a National Institute for Occupational Safety and Health (NIOSH)-approved negative pressure particulate respirator with a filter as an integral part of the facepiece or with the entire facepiece composed of the filtering medium.

...

Reference: Sections 11401.2, 11408, 11410, 11501, 11701, 11702(b), 11704, 11708(a), 12042(f), 12103, 12971, 12972, 12973, 12980, 12981, 13145, 13146, and 14006, Food and Agricultural Code.

### CHAPTER 3. PEST CONTROL OPERATIONS SUBCHAPTER 2. PESTICIDE WORKER SAFETY ARTICLE 2. GENERAL SAFETY REQUIREMENTS

Amend section 6739(b)(3) to read:

#### **6739. Respiratory Protection.**

(a) General Requirements.

(1) The employer shall assure that:

(A) Employees use approved respiratory equipment in compliance with this regulation when handling pesticides where respirators are required by label, restricted material permit condition, or regulation.

(2) In any workplace where respirators are required by label, restricted material permit condition, regulation, or employer, the employer shall establish a written respiratory protection program with work site-specific procedures. The program shall be updated as necessary to reflect those changes in workplace conditions that affect respirator use. The employer shall include in the program the following provisions, as applicable:

(A) Procedures for selecting respirators for use in the workplace;

(B) Medical evaluations of employees required to use respirators;

- (C) Fit testing procedures for tight-fitting respirators;
- (D) Procedures for proper use of respirators in routine and reasonably foreseeable emergency situations;
- (E) Procedures and schedules for cleaning, disinfecting, storing, inspecting, repairing, discarding, and otherwise maintaining respirators;
- (F) Procedures to ensure adequate air quality, quantity, and flow of breathing air for atmosphere-supplying respirators;
- (G) Training of employees in the respiratory hazards to which they are potentially exposed during routine and emergency situations, including Immediately Dangerous to Life or Health (IDLH) atmospheres, if appropriate;
- (H) Training of employees in the proper use of respirators, including putting on and removing them, any limitations on their use, and their maintenance; and
- (I) Procedures for evaluating the effectiveness of the program pursuant to subsections (n)(1) and (2).
  1. The respirator program administrator shall administer the respiratory protection program in compliance with this section.
  2. The employer shall provide respirators, training, and medical evaluations at no cost to the employee.
    - (b) Voluntary Respirator Provision.
      - (1) An employer may provide respirators at the request of employees or permit employees to use their own respirators for use on a voluntary basis, if the employer determines that such respirator use will not in itself create a hazard.
      - (2) If the employer determines that any voluntary respirator use is permissible, the employer shall provide the respirator users with the information contained in subsection (r) and display this information alongside the display of either the Hazard Communication Information for Employees Handling Pesticides in Agricultural Settings (Pesticide Safety Information Series leaflet A-8), or Hazard Communication Information for Employees Handling Pesticides in Noncrop Settings (Pesticide Safety Information Series leaflet N-8), at a central location in the workplace.
      - (3) Under the employer-supplied voluntary respirator provision, the employer shall establish and implement the provisions of a written respiratory protection program necessary to ensure that any employee using a respirator voluntarily is medically able to use that respirator, and that the respirator is cleaned, stored, and maintained so that its use does not present a health hazard to the user. Employers are not required to include a written respiratory protection program for those employees whose only use of respirators involves the voluntary use of filtering facepieces (~~dust masks~~).
