Instructions for Application for Pesticide Registration

INCOMPLETE FORMS WILL NOT BE PROCESSED

If any section does not apply to your product, please mark it N/A. A separate application form must be completed for each product and each product brand name. If you require further assistance, contact the Pesticide Registration Branch at (916) 445-4400.

1. **Firm Name:** If federally registered, this must be the same as on file with U.S. EPA. For products that do not require federal registration, this must match what is currently on file with DPR if the firm has California registered products.
2. **Firm Mailing Address:** Correspondence, licenses, notices, etc. will be sent to this address.
4. **Name of Authorized Representative:** The person who is authorized to answer any questions about your application for registration. Generally, this person prepares the application. If the person is an agent/consultant, a letter from the firm authorizing the agent/consultant to act on its behalf is required.
8. **Product Brand Name:** This must be **EXACTLY** the same as the brand name registered (or, if applicable, received) by U.S. EPA and the same as on the product labeling. The product brand name cannot be the same as another product with a different formulation. Do not include symbols used in place of words that are part of the brand name (e.g., @, TM, *, ®, etc.).
9. **U.S. EPA or CA Registration Number:** Required unless the product is exempt from, or does not require, registration under the Federal Insecticide Fungicide and Rodenticide Act (FIFRA) such as spray adjuvants, FIFRA §25(b) exempt pesticides, or the product is being submitted concurrent with submission to U.S. EPA under DPR's current policy. If the product does not require federal registration but requires registration with California, DPR will assign the product a CA registration number.
10. **Type of California Registration Action Requested:**
 - **New Product:** A product is not yet registered in California.
 - **Additional Brand Name:** For a product already registered in California.
 - **Master Label:** A product label bearing most or all U.S. EPA accepted uses for that product. Master label products cannot be sold or distributed in California.
 - **Product Transfer:** A product sold to another registrant. The product transfer does not involve the sale or purchase of the company itself.
 - **Change of Company Ownership:** Applications submitted to register products under the new company ownership.
 - **Change of Company Name Only:** There is no change in ownership.
 - **Interim Registration:** Under certain circumstances (FAC §13161), provides deferral of certain groundwater and efficacy data.
 - **Section 24c (Full Product):** This is a FIFRA §24c that is not using a product registered in California.
 - **Other:** Please attach a cover letter explaining the type of registration action requested.
13. **Container Type(s), Composition(s), and Size(s):** Describe the actual container(s), which hold the formulated product. For example, 16 oz. plastic bottle; 1, 2, and 5 gallon plastic buckets; 55 gallon steel drum.
14. **Liquid Products Only:** List the density i.e., the pound weight of one gallon of the formulated product or list the specific gravity.
Solid Products Only: Total weight per cubic foot of the formulated material.

The Application Package should contain the following:

- A cover letter describing the type of registration action requested and what is being submitted to DPR.

The Application Package shall contain the following:

A completed application form (pages 1, 2, 5). In lieu of the Product Formulation Information (p.5), the U.S. EPA Confidential Statement of Formula may be submitted.

An application fee of \$1150 is required for new products, additional brand names, master labels, product transfers, and company ownership changes. Make check or money order payable to "Department of Pesticide Regulation."

Six (6) copies of the product labeling. Typescript labeling may be submitted if printed labels are not yet available. Printer's proofs or final printed labels are required prior to issuance of a Certificate of Registration.

Copy of the U.S. EPA correspondence accepting the product transfer, company ownership, and/or name change.

Copy of U.S. EPA stamped accepted label, acceptance letter, and U.S. EPA Notice of Registration, if applicable.

One copy of all data submitted by the applicant to U.S. EPA to support this product.

One copy of the data required by California regulations (Title 3, California Code of Regulations §6170).

In lieu of submitting data pursuant to section 6170 (a) and (b), an applicant for registration or amendment may reference appropriate data previously submitted to the Director or a pesticide product(s) previously approved by the Director that would be subject to some or all of the same data requirements as applicable to the applicant's product.
NOTE: Pursuant to FAC §12811.5, applicants that rely upon data owned by another company may have certain obligations to the data owner in specifically defined situations. For further information, please refer to
<<http://www.cdpr.ca.gov/docs/legbills/ab1011/resource.htm>>

Interim registration applications (FAC §13161 et seq.), require an additional \$5,000 fee.

Additional Registration Information

Certificate of Registration / Acceptance

If your product is registered, a Certificate of Registration (license) will be issued to you, authorizing sales for the remainder of the calendar year. Pesticide products may not be offered for sale until a Certificate of Registration has been issued.

If revised labeling is accepted for a registered product, the applicant will receive a letter of acceptance and a copy of the product labeling stamped "Labeling Acceptable." The Department of Pesticide Regulation, Pesticide Registration Branch, must accept all labeling to be used in connection with the sale of a product prior to sale or use of the product.

Renewal of Registration

In October of each year, you will be sent an Application for Renewal of Pesticide Registration, listing all currently registered products. To apply for renewal of these products, registrants must sign and return the form with the appropriate fee (\$~~1450~~525 per product). A penalty is assessed on all renewal requests received after January 31. Licenses will be renewed when the fees are processed by DPR and are not retroactive to January 1.

EXTRACTS

Copies of extracts from the Food and Agricultural Code and the California Code of Regulations dealing with pesticide registration may be obtained by writing to:

Instructions for Product Formulation Information

You can submit **either** page five of the California application DPR-REG-39-030 or a copy of your U.S. EPA Confidential Statement of Formula Form. Applications with **incomplete product formulation** information cannot be processed, and the first page **will be returned**.

5. **Active Ingredient:** List each active ingredient in this formulation as it appears on the label. Please list all active ingredients from one source product together for ease of calculation of percentages.
6. **CAS No.:** The CAS Number may be obtained from the Chemical Abstract Service of the American Chemical Society, P.O. Box 3012, Columbus, Ohio, 43210. Microorganisms should be identified by ATCC (American Type Culture Collection) or other recognized type culture collection number.
7. **Name of Source Product:** The name of the product which provides that active ingredient in the formulation.
9. **Percent By Weight of Source Product in Formulated Product:** Each source product listed in Column #7 must have a value in Column #9. For example, if active ingredient A and active ingredient B are both from the same source product which makes up 50% of the formulated product, the single entry in Column 9 is 50%.
10. **Percent By Weight of Active Ingredient in Formulated Product:** This percentage should be **identical** to that given on the labeling.
11. **Inert Ingredient:** List each inert ingredient component in this formulation. **NOTE:** If you do not know the identity of an inert ingredient in your product, have your supplier submit the chemical name of each inert ingredient, source product name, purpose in formulated product and percent by weight of the source product in the formulated product directly to this office, with reference to your firm name, your product brand name and EPA or CA Reg. No.
13. **Brand Name of Source Product:** The name of the product which is the source of the inert ingredient listed in Column #11.
15. **Percent by Weight of Source Product in Formulated Product:** Give the percentage by weight of each **SOURCE PRODUCT** in the formulated product. If the percent of a source product is already listed in column #9, do not list the same figure again in column #15.
16. **Percent by Weight of Inert Ingredient in the Formulated Product:** The percentage by weight of the inert ingredient in column #11 in the formulated product.

5. Active Ingredient Give common chemical name for each active ingredient listed on the label. Microbials should show genus, species, and strain.	6. Chemical Abstracts Service (CAS) (or ATCC) No.	7. Brand name of source product for active ingredient	8. EPA <u>or CA</u> Reg. No. of source product	9. Percent by weight of source product in the formulated product.	10.
