

California State Polytechnic University, Pomona  
Production Systems

| <b>Course Name</b>                                  |
|---|
| Advanced Animal Breeding                            |
| Advanced Meat Science                               |
| Advanced Plant Propagation                          |
| Agricultural Cropping Systems                       |
| Agronomic Principles and Practices                  |
| Animal Breeding                                     |
| Animal Issues in Science and Society                |
| Animal Nutrition                                    |
| Animal Science 1 Lab: Food Animal Science           |
| Applied Reproductive Management of Domestic Animals |
| Arboriculture                                       |
| Avian Health Care and Management                    |
| Bee Science   |
| Crop Quality and Utilization                        |
| Equine Herd Health Care and Management              |
| Equine Management Science                           |
| Equine Nutrition                                    |
| Equine Reproduction                                 |
| Feed Manufacturing Technology                       |
| Global Resources for Food                           |
| Immunological Procedures in Animal Production       |
| Landscape Horticulture                              |
| Livestock Evaluation                                |
| Native Plant Materials                              |
| Nutritive Analysis                                  |
| Pastures and Forage Systems                         |
| Physiology of Reproduction and Lactation            |
| Plant Breeding                                      |
| Plant Propagation                                   |
| Plants and Civilizations                            |
| Pomology  |
| Postharvest Physiology                              |
| Ruminant Nutrition                                  |

California State Polytechnic University, Pomona  
Production Systems

| <b>Course Name</b>     |
|------------------------|
| Subtropical Fruits     |
| Turfgrass management   |
| Vegetable Crop Systems |
