

California Polytechnic State University, San Luis Obispo
Crop Health

Course Name
Abiotic Plant Problems
Advanced Plant Pathology
Advanced Soil Fertility
Agricultural Entomology
Agricultural Irrigation Systems
Chemigation
Drip/Micro Irrigation
Earth Sciences/Soils Science Practicum
Environmental Assessment for Erosion Control
Fertilizers and Plant Nutrition
Forest and Rangeland Soils
General Entomology
Introductory Soil Science
Irrigation Project Design
Irrigation Theory
Irrigation Water Management
Land Use Planning
Landscape Irrigation
Plant Pathology
Precision Farming
Principles of Horticulture and Crop Science
Principles of Irrigation
Soil and Water Chemistry
Soil Erosion and Water Conservation
Soil Interpretation and Management
Soil Judging
Soil Microbiology and Biochemistry
Soil Morphology
Soil Physics
Soil Plant Relationships
Soil Resource Inventory
Soil Science Internship
Soil Vadose Zone and Groundwater Process
Soil, Compost, and Water Testing Enterprise
Soils in Environmental and Agricultural Systems
Tropical Soils
Vineyard Water Management
Weed Biology and Management
