

California State University, Stanislaus  
Physical and Biological Sciences

<b>Course Name</b>
Animal Behavior
Animal Physiology
Biochemistry I
Biogeography
Cellular and Molecular Biology
Comparative Anatomy of Vertebrates
Conservation Biology
Ecology
Ecology and Invasive Species
Flowering Plants
Freshwater Ecology
General Biology I
General Biology II
General Chemistry I
General Chemistry II
General Vertebrate Zoology
Introductory Genetics
Invertebrate Zoology
Medicinal Plants and Herbs
Morphology of Plants, Algae, and Fungi
Organic Chemistry I
Organic Chemistry II
Plant Biology
Plant Ecology
Plant Physiology
Population Genetics
Principles of Biology
